AUSTRALIAN POOL

Australian character, designed for modern outdoor living.

Bring the unmistakable look of the Australian countryside into your garden. Inspired by the traditional corrugated water tanks found across rural Australia, this distinctive above-ground swimming pool combines industrial character with contemporary comfort.
Made from strong corrugated steel, the pool creates a striking centrepiece for gardens, terraces and holiday properties. It can be installed freestanding, partially integrated into landscaping or incorporated into a surrounding deck.

Comfortable, waterproof premium liner 75/100

A custom-made, heavy-duty pool liner fits inside the corrugated steel structure.
The liner is available in different colours, allowing you to personalise the appearance of the water and coordinate the pool with your outdoor space.
Thickness liner 0.75mm

Product dimensions

- Diameter: 183 - 272 cm
- Height: 82 cm
- Shape: Round
- Exterior: Corrugated galvanized steel
- Interior: Custom heavy-duty pool liner
- Installation: Freestanding, partially integrated or deck-integrated

What’s included?

The package contains everything required for the standard installation and filtration setup:

- 2 or 3 corrugated steel wall plates
- Bolts and screws for assembling the steel structure
- Custom-made heavy-duty pool liner
- Overlap strip for securing and finishing the liner
- All standard installation materials
- Factory pre-drilled holes
- 4,000 L/h sand filter pump
- All required filter-pump connections and fittings
- Textile black cover

Price:

1.8m diameter	**€2150**
2.7m diameter	**€2450**

What can be added?

- A Sand filter pump with a salt generator (2-in-1) (€395)
- A filter system with heater and salt generator (€1995)
- A 7Kw electric heat pump (€1290)
- A 39Kw wood fired heater (€1295)
- 25mm rubber mats for soft flooring (€20 m2)

The pool can be placed in a wide range of locations, provided the surface is firm, level and strong enough to support the filled pool.
Installation takes approximately 4 hours with 2 people. We provide step-by-step installation instructions after purchase.
